

# ONESEAL HIGH SECURITY SEAL (79-T06 ANTI-SPIN)

## OneSeal 79-T06 The only real Anti-Spin High Security Seal ISO / PAS 17712 Compliant

The Flexible High Security Container seal with anti-spin feature. The patented flexible design provides a high degree of flexibility to fit on any container, truck or trailer door hasp. The patented anti-spin feature ensures that the pin with its 4 "fins" as part of the locking mechanism prevents friction attacks.

### The pin

ONESEAL flexible type 79-T06 pin is made of metal. The rod of the seal has a Ø 5 mm soft wire embedded - making it flexible and resistible to any harsh tool. The pin is coated with plastic and marked with an "H" indicating High Security Seal. Standard colours are red, white, blue, green and yellow.

### The cylinder

The cylinder is made of metal with a non-flammable PC shock proof plastic cover. Standard colours are red, white, blue, green and yellow.

### Laser engraving

Company logo/name will be engraved on the cylinder by use of high technology laser engraving that prevents tampering. All seals are engraved with a consecutive unique numbering. Bar coding can also be applied.

### Packaging

For easy stock control and number verification the seals are delivered in two pieces – cylinders are packed on tape in consecutive order together with pins also on tape. For easy handling and distribution 100 seals are packed in one inner box. Two inner boxes are packed in one carton box.

### Customs

Seals are approved by Customs authorities world wide including US Customs, HM Customs, German and Taiwan Customs.

### ISO / PAS 17712

The seal is in compliance with ISO / PAS 17712 as a High Security Seal and is C-TPAT compliant.

Seals can only be removed by a bolt cutter.

Weight and Dimensions:

Type	Weight	Length	Width	Height	m <sup>3</sup>
Per pcs	0,040 kg				
200 pcs box	8,5 kg	38,5 cm	11,0 cm	20,0 cm	0,00847 m <sup>3</sup>
