

ONESEAL HAIR-PIN 2000

ONESEAL HP2000 Barrier seal in hardened steel

Hair-Pin 2000 is the ultimate heavy-duty barrier seal for protection of cargo transported in containers or trailers. The Hair-Pin 2000 blocks the container doors and provides the best security available at an affordable price. Tampering of seals and container door handles are eliminated by use of the ONESEAL HP2000, and removal is only possible with an electric disc cutting device.

Specifications

Surface hardened steel barrier seal consisting of only two parts plus a pin for locking.

Easy to apply as the locking mechanism is integrated

Breaking load of more than 3.5 tons. Can be applied on all ISO container types.

Company logo/name is engraved by use of high technology laser engraving that prevents tampering.

The seal is marked with Bar code as standard. Also available with customized Company logo.

The seal is accepted by US and HM Customs.

The seal cannot be removed by bolt cutter or cut by hack saw due to the hardened steel surface.
